Tamil Nadu, Kanyakumari- 629163

---

## PERSONAL SUMMARY:

React-focused developer with hands-on experience building web applications using React.js, JavaScript, REST API integration, and CRUD-based workflows. Currently working as a React Developer Intern at Info lab Technology, contributing to a product-based web application with multiple API integrations. Skilled in developing reusable UI components, handling dynamic data, debugging frontend issues, and creating responsive user interfaces

---

## TECHNICAL SKILLS:

**Frontend:** React.js, JavaScript (ES6), HTML5, CSS3, Bootstrap
**Backend:** Node.js, Express.js
**Database:** MongoDB, MySQL
**Tools:** Git, GitHub, VS Code

---

## EXPERIENCE:

**Info lab Technology, Trivandrum| React.js Developer Intern**
**Current Internship**

- Developing web application modules using React.js for a product-based company environment.
- Integrating multiple APIs to fetch, display, and manage dynamic application data
- Implementing CRUD-based workflows for create, read, update, and delete operations.
- Building reusable and responsive UI components for better maintainability and user experience.
- Debugging frontend issues and supporting smooth integration between UI and backend APIs.

**Logi prompt Pro Academy, Trivandrum | MERN Stack Developer- (Training & Live Projects)**
**Aug 2025 – Jan 2026**

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB
- Built responsive UI components and integrated REST APIs
- Implemented authentication, CRUD operations, and role-based access
- Collaborated on real world project workflows and debugging

---

## PROJECT:

**Multi-Vendor E-Commerce Application (MERN Stack)** | GitHub | Live Demo

- Built a full-stack multi-vendor e-commerce platform with User, Seller, and Admin roles
- Implemented JWT authentication, role-based access, and REST APIs
- Developed responsive UI using React.js and Bootstrap
- Used MongoDB for product, order, and user management

**Social Media UI Application (React.js)**

- Built a responsive social media UI inspired by Instagram using React.js
- Developed reusable components and clean layouts
- Implemented responsive design using Bootstrap
- Focused on UI consistency and user experience

## EDUCATION:

**B. Tech -** Chemical Engineering, Kongo Engineering college, Erode
